

OWNER REPRESENTATION

SCOPE OF SERVICES

THE OWNER'S REP ROLE

Victory Formation Ventures (VFV), through its Telos custom home practice, serves as your fiduciary advocate throughout the full pre-construction and construction lifecycle of your custom home. All communication with the builder, architect, designer, and tradespeople funnels through VFV, so your interests are protected at every step and decisions are made with full information.

TIMELINE

A typical engagement runs 16 to 18 months from lot identification through certificate of occupancy. Pre-construction work (site selection, design coordination, builder bidding, contracts) is included in the engagement; there is no separate pre-construction fee.

ARCHITECTURAL OVERSIGHT

VFV reviews architectural plans and proposed square footage against your budget and expectations, flagging any misalignment before contracts are signed and construction begins.

DESIGN OVERSIGHT

VFV oversees design coordination throughout pre-construction whether or not an interior designer is retained, ensuring clear and concise communication with the builder. If no interior designer is hired, VFV additionally facilitates the design selection process directly.

CONSTRUCTION OVERSIGHT

- Reviews every subcontractor quote and verifies material and labor costs against industry standards.
- Presents alternative subcontractor options when pricing is out of line.
- Reviews draws, change orders, and allowances before you authorize payment.
- Weekly site visits with a written progress and risk report.
- Coordinates punch list completion and the Certificate of Occupancy.

FEE STRUCTURE

5%

of hard construction costs

Paid evenly across construction, from demolition through C.O. Pre-construction (lot diligence, architect and builder selection, bid leveling, contract review, budget and schedule baseline) is included.

What the fee buys

One point of contact from day one through Certificate of Occupancy: every meeting attended, every draw and change order reviewed, every subcontractor quote checked, weekly site visits with a written report, and a monthly budget review.

INCLUDED IN THE FEE BASE · HARD COSTS

- Materials (lumber, concrete, fixtures, appliances)

EXCLUDED FROM THE FEE BASE · SOFT COSTS

- Labor, all on-site trades and crew
- Site preparation, grading, and excavation
- Landscaping and hardscape (materials plus labor)
- Architect and interior designer fees
- Builder's own fee
- Construction-loan interest and financing costs
- Annual property taxes
- Title and closing costs
